Prefabricated Log House Kit - Model 126, a durable home made from glue-laminated timber for enhanced strength and stability. The open layout creates a spacious living area. Glue-laminated timber provides superior resistance to warping and long-lasting durability. Large windows allow natural light to flood the interior, creating a bright and inviting space. Ideal for families, the Model 126 offers both comfort and lasting quality. Its classic design complements any environment. Choose this home for its strength, elegance, and enduring appeal, perfect for year-round living.
